Please make sure you have adequate prescriptions on hand at all times and book early appointments to avoid running out of medication.

Request for Personal Health Information

Patients are able to access their health information. An appointment can be made with the doctor of your choice to discuss this request.

Waiting Times

Nobody likes to be kept waiting. Despite our best intentions, we sometimes run late. This is because we have experienced an unexpected emergency or we may be dealing with a consultation that is taking longer than expected. Be assured that when it comes to your consultation time with the doctor, they will give you the time needed. Thank you for your consideration and support.

Patient Identification, Emergency Contact & Next of Kin Details

We will confirm your identification at each contact with the Practice, this is to ensure we have your up to date information and to ensure it is **your** Health Record that is opened and not a patient with a similar name or date of birth. This is **NOT** because we do not know you, it is to ensure we connect you with your correct health record and to maintain the privacy of your information and entries in our Practice.

We will also ask you to confirm your nominated Next of Kin & Emergency Contact Details. The reason for this is, in the case of an emergency or urgent contact being necessary, we are able to contact those you have nominated, should we not be able to contact you, the patient.
